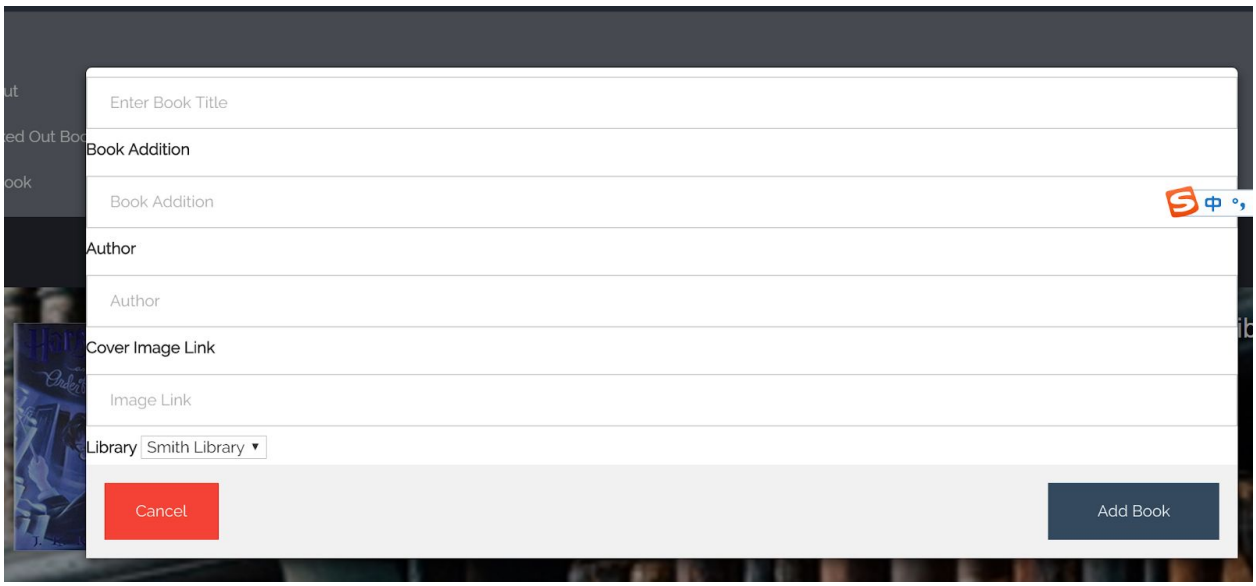
ThatzTheBook documentation

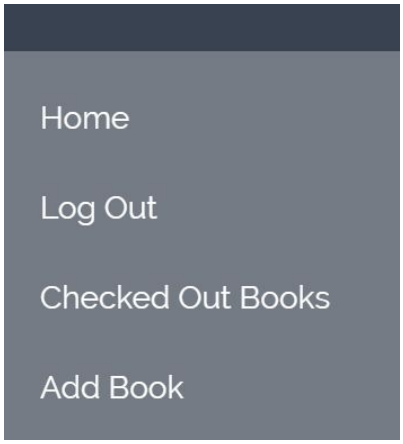
ThatzTheBook is an online library in which users can browse through books of libraries that are in the system.

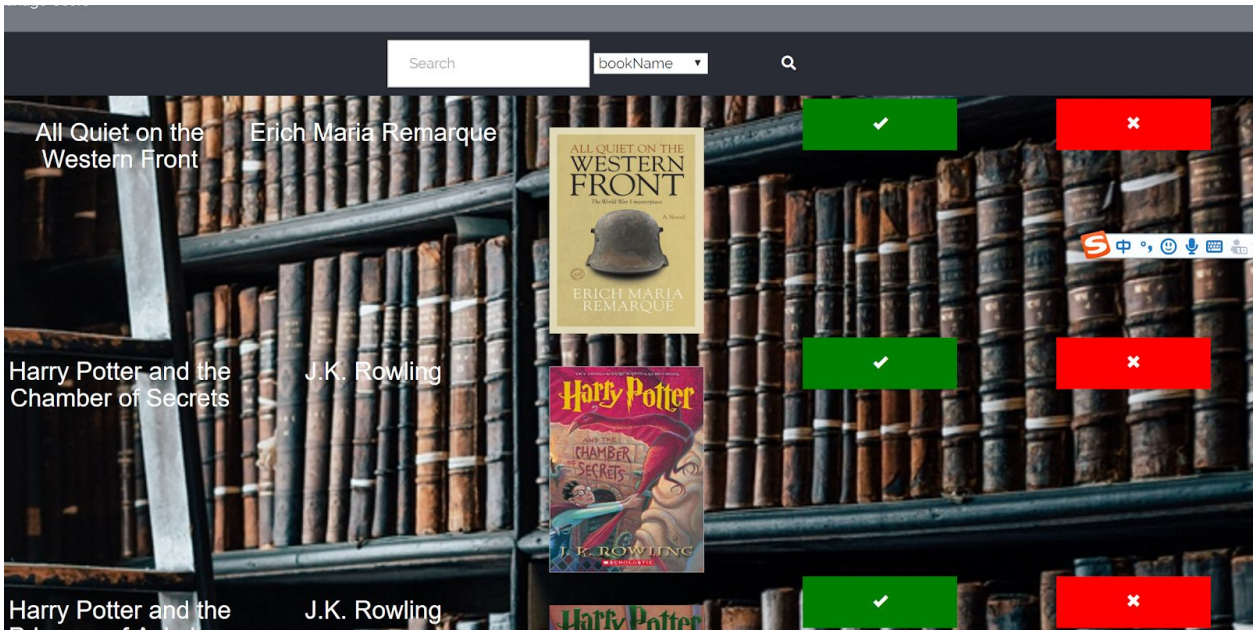
1. This website allows new users to register for an account with a username, name, password and a profile image. The user can upload a profile image by clicking on the upload button.

2. Once a user has registered they will be able to add books for approval to the library of their choosing.

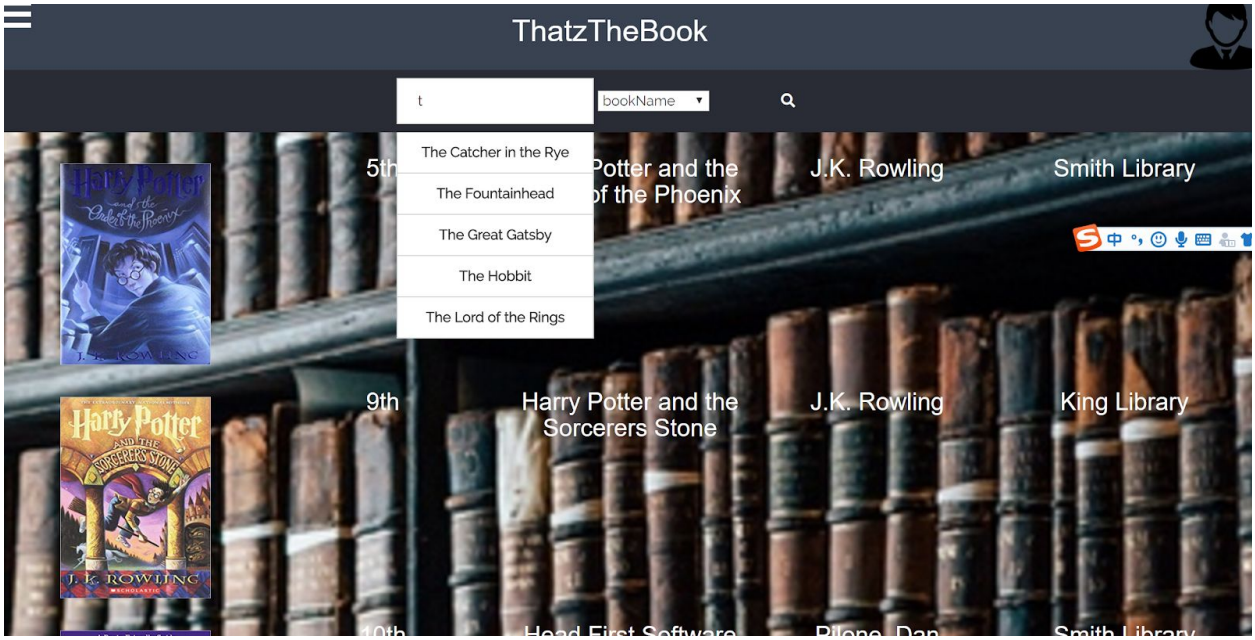


3. Additionally a logged in User can checkout/renew a book by clicking on the image of the book and clicking the checkout book. After checking out the book the user can see their username in the checked out by table column. Once the user has checked out a book they can go to the navigation bar and select checked out books to see the books that they have checked out plus any fees that have if the book is past due.

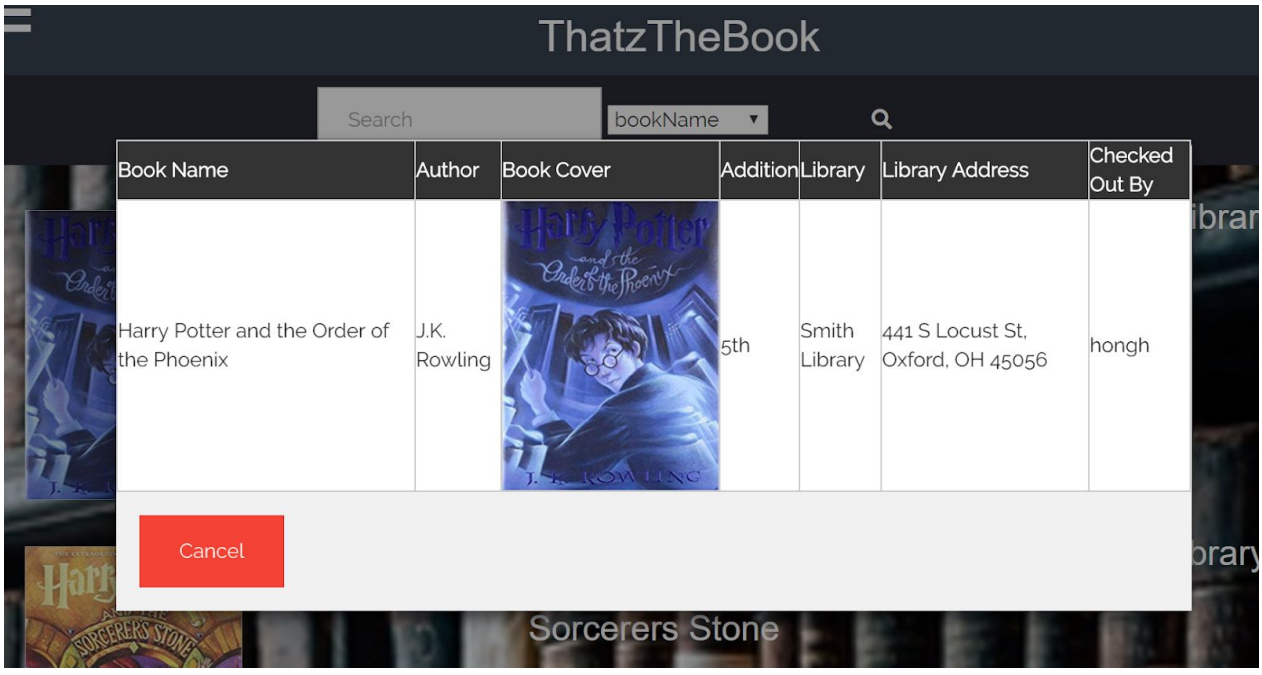




4. User can search books based on different filter options.



User can also check the information of a book, including book name, author, book cover, addition, library that provide the book, library address and status.



Mobile

On mobile the functionality is mostly the same the only difference is that to leave a windowed view you must click the cancel or their is a small x in the upper right corner that will both close the window
